

# TaHoma<sup>®</sup> switch

Switch your home in one touch.

The 1<sup>st</sup> smart control to centralise & connect your home equipment.

somfy<sup>®</sup>

# Make the most of **your home**

Installing motorised shutters, blinds, awnings or gates is the first step to making life at home more comfortable and convenient. By adding a touch of connectivity, a world of possibilities opens to you.

Somfy's connected equipment helps you make the most of your home. TaHoma switch frees you from repetitive, mundane tasks and adds new features to your home. Enrich your daily experience to focus on what you love.

## No more wasting time

“Rushing through the whole house to close or switch off all your equipment is such a waste of time! I really need a solution that quickly centralises everything for me.”

Joe

## Greater peace of mind

“When I leave home, I often wonder if I have forgotten to switch off the lights or activate the alarm. I want technology that fits my lifestyle – and not the other way around – to help protect my home and bring me peace of mind.”

Matilda

# Create your own routines & launch them **in one touch**

TaHoma switch is a smart control, offering 2 personalised scene launcher buttons to centralise your home equipment. Customise each button based on your devices to create scenes that fit your daily routines.

**Customised scene I**  
Example: Leaving home  
Close the rolling shutters  
Turn off your lights

**Stop**

**Customised scene II**  
Example: Coming home  
Turn on your lights  
Open the rolling shutters

**+** Eco-designed product

**+** Compact and powerful, the smart control is easy to program and use, whether you are experienced with connectivity or just starting out.

**+** Its sleek design adds an elegant touch to any style décor.

**+** Place the Wi-Fi enabled TaHoma switch wherever it is most convenient at home. Always know where it is!

Make it your own! >>>

Can also be controlled automatically, with a smartphone or a voice assistant\*.

## Leaving & coming back home

Customised scene |

**Leaving home:**  
the quickest,  
easiest way.

When rushing out the door in the morning, simply touch the "Going Out" scene button you have programmed: The rolling shutters come down, the garage door opens, and you can head off to work in total peace of mind.

Customised scene ||

**Coming home:**  
a welcoming home  
in one touch.

What a relief to come home after a long day at the office and be able to relax right away, hassle-free! Simply touch the second scene button to open all the rolling shutters and turn the lights on from the hallway or main room.

Take it a step further: add an alarm for greater peace of mind. Easily connect any compatible alarm to your system. If someone tries to break in, you receive an alert on your phone, your shutters close automatically, and the outdoor lighting turns on.

Take it a step further: add a smart thermostat for greater energy efficiency.

The temperature automatically adjusts to your daily life, with comfort mode when you're home and eco mode at night or when you're away.

Can also be controlled automatically, with a smartphone or a voice assistant\*.

## Day & night

Customised scene |

### Start the day right with a "Good Morning" scene

With the touch of a button, activate the "Good Morning" scene and watch your home awaken: the rolling shutters open and the lighting adjusts just as you programmed it. Simple and practical.

Customised scene ||

### Head off to bed with a "Goodnight" scene

In one touch, the shutters close and the lights turn off.

## Evenings indoors & out

Customised scene |

### Private and comfortable

Instantly create the atmosphere of your choice by launching your scene. TaHoma switch lowers your blinds, dims your lights and plays your favourite playlist to help you unwind.

Customised scene ||

### Warm and inviting

Enjoy a cosy evening with friends on your terrace. With one touch roll out the awning, switch on the outdoor lights and put on your preferred music.

**Take it a step further: Presence simulation.**

Going away on vacation? Simply create the illusion that you haven't left home by using presence simulation: a special scene that turns lights on and off and opens and closes your shutters or blinds at set times.

## 3 ways to control your devices

1

**With the smart control**  
Launch your daily routines in one touch.

2

**With the TaHoma app**  
Program and control your devices from home, away or automatically.

3

**With a voice assistant\***  
When your hands are full and from your car.

### Ask it and it's done!

“My guests have arrived early and I still haven't finished getting everything ready for dinner! I simply ask my voice assistant “Can you open the gate?” and in they come.”

**Compatible with:**

\* Requires an additional voice assistant (availability depending on countries)

## Control your connected home, anytime & anywhere

**Control your connected devices**

- individually or as a group
- from home or away
- from the app or automatically

**Get real-time information on your equipment's status**

(for example, “on” or “off”, “open” or “closed”)

**Use programming features that automatically trigger scenes:**

- with sensors
- with time programming

**Easily create scenes** and customise your two scene launcher buttons

**Connect your existing devices** or add new ones in a snap

Save your favourite equipment, rooms or scenes and find them with direct access.
